A Portrait of Her Imperial Highness
the Grand Duchess Anastasia Nikolayevna

Anastasia Romanov was born in a beautiful seaside palace on June 18, 1901. She was the youngest daughter of the Czar Nicholas II, the ruler of Russia. Because she was the daughter of the Czar, Anastasia's official title was "Her Imperial Highness the Grand Duchess Anastasia Nikolayevna."

Although you might think that Anastasia was very different from American girls of today, she was similar in many ways. She liked to sketch and paint, take photographs, swim and play with her brother and sisters, and she sometimes found her schoolwork boring.

When Anastasia lost her family, she discovered what was really important to her. She wanted the same things you want: a loving family, a home, and lots of friends. Anastasia would have treasured a keepsake album like this one. You can use it to record all your thoughts, feelings, and memories about the people and places that are most important to you.
